Jane Henney, FDA
5600 Fishers Ln.
Rockville, MD 20857
(Room 1471)

Dear Commissioner:

All bureaucracies throughout time have exceeded the bounds originally placed on them, have become arrogant, have defied the courts and even their creators, have slowed progress, and have thumbed their collective noses at WE THE PEOPLE.

Yours is no exception, especially with regard to labeling information on benefits of nutrient supplements, which I am taking – with no help from you – to maintain my health.

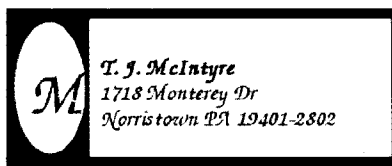

You are a hindrance. You're doing harm. Do a 180 in order to help WE THE PEOPLE. Don't wait until we outnumber you. Because when that happens, we'll make changes inimical to your cushy paychecks.

Ignore the rich special interests! Get on the ball! Do your job!

Tom McIntyre
